- 30-Day Action Plan** — Your Complete Implementation Roadmap
- Resources & Tools** — Everything You Need to Run Great Ads
- About the Author** — Rishabh Shukla — Founder, MechServi

Introduction

Why This Book Was Written

Every day, thousands of Indian business owners boost a post on Facebook, spend ₹500, get zero results, and conclude that 'Facebook ads don't work.' Then they stop.

The truth is not that ads don't work. The truth is that nobody showed them how to use the tool correctly. You would not hand someone a scalpel and expect them to perform surgery. Advertising on Meta platforms is a skill — and like every skill, it can be learned.

This book exists because you deserve a complete, honest, practical guide written specifically for the Indian market, using realistic budgets, Indian business examples, and language that does not assume you have a marketing degree. Every strategy in this guide has been tested with real rupees, on real campaigns, in real Indian cities.

Who This Book Is For

- Shopify store owners who want consistent daily sales
- Entrepreneurs selling digital products like eBooks, courses, or templates
- Small business owners with ₹1,000 to ₹3,000 per day in ad budget
- Freelancers who want to offer Facebook Ads as a service
- Complete beginners who have never run a single ad

What You Will Achieve

By the time you finish this book and implement the strategies inside, you will be able to:

- Set up a professional Business Manager account from scratch
- Create ad campaigns that reach exactly the right people
- Write ad copy and design creatives that stop the scroll
- Spend your budget efficiently and track every rupee
- Scale winning campaigns to multiply your revenue
- Sell digital products like this very eBook using the same ads

RISHABH'S 5-STEP META ADS FORMULA

STEP 1 Audience Research — Find exactly who will buy from you

STEP 2 Creative Hook — Stop the scroll in 3 seconds

STEP 3 Landing Page — Convert clicks into buyers

STEP 4 Retargeting — Recover 40% of lost visitors

STEP 5 Scaling — Go from ₹1,000 to ₹50,000/day

CHAPTER 1

Understanding Facebook & Instagram Ads

The Big Picture Before You Spend a Single Rupee

Why Meta Ads Are the Most Powerful Tool for Indian Businesses

India has over 500 million active Facebook users and more than 229 million Instagram users. These are not just teenagers scrolling. These are working professionals, housewives, students, business owners, and buyers — people with purchasing power, spending hours every single day on these platforms.

Unlike Google Ads where people have to be searching for your product, Facebook and Instagram allow you to show your product to people BEFORE they know they want it. This is called interruption marketing, and when done correctly, it creates demand rather than just capturing it.

How the Meta Ads Auction Works

Every time a user opens Facebook or Instagram, Meta runs an instant auction to decide which ad to show them. You are competing against other advertisers. The winner is NOT always the highest bidder. Meta considers three things:

- Your bid — how much you are willing to pay
- Estimated action rate — how likely Meta thinks the user is to click or buy
- Ad quality — how relevant and engaging your ad is

This means a great ad with a small budget can beat a poor ad with a huge budget. Quality wins. This is good news for you.

The Difference Between Facebook and Instagram Ads

Platform	Audience	Best Content	Best For	Key Placements
Facebook	25–55 age group, professionals, family-oriented	Text-heavy posts, longer captions	Local businesses, B2B, community, news	Feed, Stories, Reels, Marketplace, Messenger
Instagram	18–35 age group, visual-focused, aspirational	High-quality visuals, short punchy copy	Fashion, food, lifestyle, ecommerce, digital products	Feed, Stories, Reels, Explore

Key Terms You Must Know

Term	What It Means	Target for ₹99 Products
Impressions	Number of times your ad was shown	As high as possible
Reach	Number of unique people who saw your ad	Broad in testing phase
CPM	Cost Per 1,000 impressions	₹60–120 (India average)
CTR	Click-Through Rate — % who clicked	Above 1% = good, 2%+ = great
CPC	Cost Per Click	Below ₹5 is excellent
Conversions	Desired actions: purchase, lead, sign-up	Track every one
ROAS	Revenue divided by ad spend	Minimum 2x, aim for 3x+
Frequency	Avg times one person saw your ad	Keep below 4 to avoid fatigue
Pixel	Tracking code reporting actions to Meta	Install before Day 1

💡 PRO TIP

Never judge an ad campaign before it has run for at least 3–7 days. Meta needs time to learn.

A ROAS of 3x means for every ₹100 you spend, you get ₹300 in revenue. This is your minimum target.

The Indian audience responds strongly to social proof — show reviews and real customer photos.

Start with Instagram Reels placements. In 2026, Reels delivers the lowest CPM in India.

CHAPTER 2

Setting Up Your Business Manager & Ad Account

Build Your Advertising Foundation Correctly

 **HOW-TO GUIDE:** The screenshots below represent what you will see inside Meta Business Suite when setting up your account. Follow each step in order.

Step 1 — Create Your Meta Business Suite

Go to business.facebook.com and click Create Account. You will need a personal Facebook account. Your business account is separate from your personal profile — customers will never see your personal account.

- Go to business.facebook.com
- Click 'Create Account'
- Enter your business name (e.g., MechServi)
- Enter your name and business email
- Follow the verification steps

 **SCREENSHOT REFERENCE:** Navigate to business.facebook.com → You will see the Business Suite dashboard. Look for 'Ad Accounts' in the left menu → Click 'Create' to begin your first ad account setup.

Step 2 — Add Your Facebook Page

You need a Facebook Business Page to run ads. If you do not have one, create it inside Business Manager under Pages. Your page is your ad's identity — users will see your page name and profile picture on every ad.

Step 3 — Create Your Ad Account

Inside Business Manager, go to Ad Accounts and click Add. Select 'Create a New Ad Account.' Set your currency to Indian Rupee (INR) and time zone to India Standard Time. This cannot be changed later.

CRITICAL WARNING

Set currency to INR and time zone to Asia/Kolkata BEFORE creating your first campaign.

Once set, these CANNOT be changed. If you get it wrong, you must create a new ad account.

Use a business email for your ad account, not a personal Gmail.

Add a backup admin to your Business Manager so you never get locked out.

Step 4 — Install the Meta Pixel on Your Shopify Store

The Meta Pixel is the most important technical step. It is a small piece of code that sits on your website and tells Facebook what people are doing — viewing products, adding to cart, purchasing. Without a Pixel, you are flying blind.

- In Meta Business Manager, go to Events Manager
- Click 'Connect Data Sources' then 'Web'
- Select 'Meta Pixel' and name it (e.g., MechServi Pixel)
- Copy your Pixel ID (a 15-16 digit number)
- In Shopify, go to Online Store → Preferences → Facebook Pixel
- Paste your Pixel ID and click Save
- Install Facebook & Instagram app from Shopify App Store for deeper integration

Once installed, visit your own website and check Events Manager — you should see 'PageView' events appearing in real-time. This confirms your Pixel is working.

 **SCREENSHOT REFERENCE:** Events Manager → Data Sources → Your Pixel → 'Test Events' tab. You will see real-time events firing as you browse your website. PageView should appear within 30 seconds of visiting a page.

Step 5 — Set Up Payment Method

Go to Ad Account Settings → Payment Methods. In India, Meta uses prepay billing — you add money to your account and ads run until the balance runs out.

- Credit or Debit Card (Visa/Mastercard)
- UPI (for prepay billing)
- Net Banking

Set up auto-recharge so your campaigns never pause unexpectedly. Recommended minimum balance: ₹2,000 as a buffer.

CHAPTER 3

The Audience — Who Are You Selling To?

The Wrong Audience Wastes Every Rupee. The Right One Prints Money.

The biggest reason Facebook ads fail is not bad creatives or low budget. It is showing the right product to the wrong person. Audience targeting is the single most important skill in Meta advertising.

The Three Types of Audiences

1. Cold Audiences — People Who Do Not Know You

These are strangers. You reach them through interest targeting, demographic targeting, or broad targeting. They have never heard of your brand, so your ad must instantly grab attention, build trust, and give them a reason to click.

- Interest targeting: People who follow digital marketing, entrepreneurship, online business
- Demographic targeting: Men and women aged 21-40 in Tier 1 Indian cities
- Broad targeting: Let Meta's algorithm find buyers (works best with Pixel data)

2. Warm Audiences — People Who Have Engaged With You

These people have visited your website, watched your videos, or followed your Instagram. They know you exist. Ads to this audience convert at 3-5x higher rates than cold audiences.

- Website visitors in the last 30, 60, or 180 days
- People who viewed a specific product page
- Instagram profile visitors
- Video viewers (people who watched 50% or more of your videos)

3. Hot Audiences — People Who Almost Bought

These are your highest-value targets. They added a product to cart or started checkout but did not complete the purchase. Showing them a retargeting ad with a small discount or urgency message converts extremely well.

- Add-to-cart without purchase (last 14 days)
- Initiated checkout without purchase (last 7 days)
- Past purchasers (for repeat sales or upsells)

Lookalike Audiences — Your Secret Weapon

A Lookalike Audience is Meta's most powerful targeting tool. You give Meta a list of your existing customers or pixel data, and Meta finds millions of new people in India who are similar to your best customers.

- Collect at least 100 customer emails or pixel purchase events

- Go to Audiences → Create Audience → Lookalike Audience
- Select your source (customer list or Pixel purchases)
- Choose location: India
- Choose size: 1% (most similar) to 10% (broader)

A 1% Lookalike Audience in India contains approximately 5-7 million people who are statistically similar to your existing customers. This is extremely powerful for scaling.

Audience Targeting for eBook Sellers in India

Targeting Layer	Recommendation	Why It Works
Interest 1	Digital marketing, Online business, Entrepreneurship	Direct intent audience
Interest 2	Facebook advertising, Social media marketing	Specific to your product
Interest 3	Make money online, Passive income, Freelancing	High motivation buyers
Demographics	Age 21-40, All genders, India or specific cities	Primary buyer profile
Income Layer	Top 10% household income (optional)	Removes price-sensitive non-buyers
Behaviour	Online buyers, Small business owners	Proven purchase behaviour
Exclude	Employees of Meta, Already purchased customers	Avoid wasted spend

PRO TIP

For eBooks priced at ₹99, broad targeting often outperforms narrow interest targeting in India.

Test Lucknow, Delhi, Mumbai, Bangalore, Hyderabad as separate ad sets to find your best city.

Exclude people who already purchased — this is set up in your Custom Audiences section.

CHAPTER 4

Ad Creatives — Images, Videos & Copy That Convert

Your Creative Is 80% of Your Result

Media buyers have a saying: 'The creative IS the targeting.' In 2026, with Meta's AI becoming extremely good at finding buyers, your image or video and your words matter more than any targeting setting.

The 3-Second Rule

You have exactly 3 seconds to stop someone from scrolling past your ad. If your visual does not make them pause, nothing else matters. Your first frame, your headline, your thumbnail — these are the most valuable pieces of real estate in your entire business.

What Works for Indian Audiences in 2026

Creative Format	Why It Works	Best Platform
UGC (User Generated Content)	Real customers feel authentic, builds immediate trust	Reels + Feed
Before/After Transformation	Works in education, fitness, business. Shows real change	Feed + Stories
Text-on-Screen Reels	Bold captions over product showcase — stops scroll fast	Instagram Reels
Testimonial Screenshots	Real WhatsApp or review screenshots build massive trust	Feed
Price Reveal	'This costs ₹499 at institutes. We sell it for ₹99.' Creates urgency	All placements
Problem-Agitate-Solve	Call out the pain, intensify it, then show your solution	All placements

The AIDA Formula for Indian Ads

AIDA Step	What To Do	Example for This eBook
A — Attention	Stop the scroll with a bold statement or question	'Still boosting posts and wasting money?'
I — Interest	Tell them what is inside and why it matters	'This ₹99 guide teaches what agencies charge ₹50,000 for.'
D — Desire	Paint a picture of the result they	'Imagine waking up to sales notifications every

AIDA Step	What To Do	Example for This eBook
	will get	morning.'
A — Action	Tell them exactly what to do next	'Click below. Get instant access. Start today.'

20 Ready-to-Use Ad Copy Templates

Copy any of these directly into your Ads Manager. Replace [Product], [Price], and [Result] with your specifics.

AD COPY TEMPLATE 1 — Pain + Solution (Short Form)

Are you spending money on Facebook ads and getting ZERO results?
 I was too. Until I discovered the exact system that got me my first ₹50,000 in online sales.
 Now I have written everything in a simple guide — for just ₹99.
 What is inside:
 → The exact campaign structure that works in 2026
 → How to target buyers (not just browsers)
 → The ₹1,000/day budget plan that actually works
 Click below. Instant download. ₹99 only.

AD COPY TEMPLATE 2 — Curiosity Hook

A mechanic startup owner from Lucknow spent ₹24,560 on Facebook ads.
 The result? ₹3,85,210 in revenue. ROAS: 15.69x.
 This is not luck. This is a system.
 I have documented every step inside this ₹99 guide.
 Tap the link. Read it today. Run your first ad tomorrow.

AD COPY TEMPLATE 3 — Social Proof First

2,350 leads. ₹10.45 cost per lead. 356 conversions.
 These are real numbers from a real Indian business running Meta Ads.
 The strategy is not secret anymore — it is in this ₹99 guide.
 If you have a product to sell, you need to read this.
 Link below. Instant access. No subscription.

AD COPY TEMPLATE 4 — Objection Killer

'Facebook Ads are too expensive for my small business.'
 I hear this every week. And every week I share the same truth:
 You can start with ₹500 and still get results — if you know the system.
 This ₹99 guide shows you exactly how.

₹99 to learn. Or ₹50,000 to a marketing agency. Your choice.

AD COPY TEMPLATE 5 — Urgency + Scarcity

This guide is being sold at ₹99 for a limited time.

Original price: ₹999. You save 90% today.

Inside: The complete Meta Ads system for Indian entrepreneurs.

10 chapters. 30-day action plan. Real campaign templates.

Click now. Lock in the ₹99 price before it goes back up.

AI Prompts to Create Your Ad Visuals

Use these prompts in Canva AI, Midjourney, or DALL-E to create professional ad creatives:

- 'Young Indian entrepreneur at laptop, smiling confidently, charts showing growth on screen, bright professional home office, realistic photo style'
- 'Split image showing confused person vs confident business owner, before and after style, clean modern design, blue and orange color scheme, Indian setting'
- 'Smartphone showing Facebook ad dashboard with rising ROAS graph, hands holding phone, blurred Indian city background, professional advertising concept'
- 'Bold text overlay on dark background: ₹99 eBook cover design, modern typography, Facebook blue and Instagram gradient colors, India focused'

CHAPTER 5

Campaign Structure — The Right Way to Build Ads

Architecture Determines Results

The Three Levels of Every Meta Campaign

Level	What You Control Here	Think of It As
Campaign Level	Your OBJECTIVE — what do you want to achieve? Purchase, Lead, Traffic?	The destination on a map
Ad Set Level	Your AUDIENCE — who sees the ad? Your BUDGET — how much to spend?	The route you take
Ad Level	Your CREATIVE — the image/video, headline, and copy the audience sees	The vehicle you drive

Choosing the Right Campaign Objective

This is the most common mistake beginners make. They choose 'Traffic' when they want sales. Meta optimises for whatever objective you choose — if you ask for traffic, you get traffic, not buyers.

Objective	When to Use It	For ₹99 eBook?
Awareness	New brand, want people to know you exist	No — too early stage
Traffic	Want people to visit your blog or landing page	No — gets clicks not buyers
Engagement	Want likes, comments, and shares	No — vanity metrics
Leads	Want people to submit name and phone number	Only for WhatsApp leads
Sales (Conversions)	Want PURCHASES — primary objective for products	YES — always use this
App Installs	Have a mobile app to promote	Not applicable

⚠ CRITICAL WARNING

For Selling eBooks at ₹99 — ALWAYS Choose SALES Objective.

Select 'Sales' as your campaign objective.

Select your Meta Pixel as the conversion event.

Choose 'Purchase' as the specific event to optimise for.

Meta will show your ad to people most likely to actually purchase, not just click.

Advantage+ Campaign — Meta's AI in 2026

Meta's Advantage+ Shopping Campaign (ASC) is the most powerful campaign type available in 2026. It uses Meta's AI to handle targeting, placements, and creative testing automatically. For ecommerce and digital products, this is the recommended starting point.

- Advantage+ automatically finds your buyers across Facebook and Instagram
- It tests your creatives automatically and pushes budget to winners
- Minimum budget recommended: ₹500 per day to let the AI learn
- Give it 7 days before judging results — the algorithm needs time

The Testing Structure

- Create 1 Campaign with Sales objective
- Create 2-3 Ad Sets with different audiences (cold, warm, broad)
- Create 3-5 Ads per Ad Set with different creatives
- Run for 7 days minimum without making changes
- Identify the winning Ad Set and winning Ad
- Turn off everything else, scale the winner

CHAPTER 6

Budgeting — Spending ₹1,000 to ₹3,000 Per Day Profitably

Every Rupee Has a Job

Understanding Your Unit Economics

Before you spend a rupee, you need to know your numbers. For your ₹99 eBook business:

Metric	Value	Why It Matters
eBook price	₹99	Your revenue per sale
Shopify transaction fee (~2%)	₹2	Reduces your net
Payment gateway fee (~2%)	₹2	Reduces your net
Net revenue per sale	₹95	Your actual take-home
Target Cost Per Purchase	₹40-60	To be profitable on each sale
Target ROAS	2x minimum	₹99 revenue from ₹50 spend
Break-even CPA	₹95	NEVER exceed this

The ₹1,000 Per Day Budget Plan

Allocation	Amount	Purpose
Cold audience testing	₹400/day — 40% of budget	Find new buyers, test creatives
Warm audience retargeting	₹300/day — 30% of budget	Convert website visitors
Hot audience (cart abandoners)	₹200/day — 20% of budget	Recover nearly-lost sales
Reserve/testing buffer	₹100/day — 10% of budget	Test new angles and copy
Monthly budget total	₹30,000/month	Full month spend
Target sales at ₹60 CPA	500 sales/month	Realistic achievable target
Target revenue	₹49,500/month	500 x ₹99
Estimated profit	₹19,500/month	After ad spend and fees

Scaling to ₹3,000 Per Day

Once you have a profitable campaign structure proven at ₹1,000/day, scaling to ₹3,000/day should produce proportionally larger results, assuming your ROAS holds.

- ⚡ Do NOT simply triple your budget overnight. Increase by 20% every 2-3 days.
- ⚡ A sudden budget increase resets Meta's learning phase and can hurt performance.
- ⚡ Alternatively, duplicate your winning campaign and set the new one to ₹2,000.
 - At ₹3,000/day: target 1,500 sales per month = ₹1,48,500 revenue

Bid Strategies — Which to Use

Bid Strategy	When to Use	Risk Level
Highest Volume	Let Meta spend budget for maximum results. Best for testing phase.	Low
Cost Per Result Goal	Set a target CPA. Use once you know your target cost per purchase.	Medium
ROAS Goal	Tell Meta your minimum acceptable ROAS. Best for scaling profitable campaigns.	Low at scale

CHAPTER 7

Running Your First Campaign — Step by Step

From Zero to Live in 60 Minutes

Pre-Launch Checklist

- ✓ Meta Pixel installed and verified (seeing PageView events in Events Manager)
- ✓ Purchase event firing correctly on your Shopify store
- ✓ Facebook Page created with professional profile picture and cover photo
- ✓ At least 3 ad creatives ready (images or videos)
- ✓ Ad copy written for each creative using AIDA formula
- ✓ Payment method added to ad account with ₹2,000+ balance
- ✓ Landing page/product page live and fully mobile-optimised
- ✓ Audiences created: Cold, Warm, and Lookalike

Step-by-Step Campaign Launch

1. Go to Ads Manager at business.facebook.com/adsmanager
2. Click the green 'Create' button
3. Select objective: 'Sales'
4. Name your campaign: 'MechServi eBook — Sales — [Date]'
5. At Ad Set level: Choose your Pixel and Purchase event
6. Set audience: Start with Broad (India, Age 21-40)
7. Set placements: Use Advantage+ Placements (recommended)
8. Set budget: ₹400/day for this ad set
9. At Ad level: Upload your creative (video or image)
10. Add headline, primary text, and CTA button ('Shop Now' or 'Get Offer')
11. Add your website URL (your Shopify product page)
12. Preview your ad on mobile — 90% of views are on mobile
13. Click Publish — your ad enters review (usually 1-24 hours)

 **SCREENSHOT REFERENCE:** Inside Ads Manager — When you click 'Create', you will see the campaign objective selection screen. Choose 'Sales' (the shopping bag icon). This is different from 'Conversions' in older versions — Meta has merged them.

The Learning Phase — What to Expect

After you publish, Meta enters a 'Learning Phase' for each Ad Set. During this phase, Meta is testing your ad against different users to learn who responds best. The learning phase requires approximately 50 conversion events.

 CRITICAL WARNING

Do NOT edit your ad, budget, audience, or creative during the learning phase.

Do NOT panic if day 1 and day 2 have poor results — this is completely normal.

Give the campaign minimum 7 days and 50 purchase events before judging performance.

If you make any changes, the learning phase RESTARTS from zero — be patient.

The more purchases your campaign gets, the smarter Meta becomes at finding buyers.

CHAPTER 8

Reading Your Results — What the Numbers Mean

Data Tells You What to Do Next

The Only Metrics That Matter (For Beginners)

Metric	What It Means	Target for ₹99 eBook
ROAS	Return on Ad Spend. Revenue / Ad Spend.	Above 2x minimum
CPA (Cost Per Purchase)	How much you paid per sale.	Below ₹60
CTR	Click-Through Rate. % who clicked.	Below 1% = creative problem. 2%+ = great
CPM	Cost per 1,000 impressions.	₹60-120 (India average)
Frequency	Times each person saw your ad.	Keep below 4
Add to Cart Rate	High but low purchases = checkout problem on website.	Track the ratio

The Diagnosis Framework

Problem: High CTR but Low Sales

Your creative is working (people are clicking) but your landing page or checkout is failing. Check: Is your Shopify page mobile-optimised? Is payment working? Is the price clearly shown? Are there trust signals like reviews?

Problem: Low CTR (Below 0.8%)

Your creative is not stopping the scroll. The problem is your image/video or the first line of your copy. Test completely different creative concepts. Try video instead of image, or change your hook line entirely.

Problem: High CPM (Above ₹200)

Your audience is too small or too competitive. Broaden your targeting, expand age range, or add more cities. Alternatively, try running only on Instagram Reels which has lower CPM in India.

Problem: Campaign Not Spending Budget

Your audience is too narrow, your bid is too low, or your ad is in review. Check your audience size (should be minimum 500,000), increase budget slightly, or review your ad for policy violations.

CHAPTER 9

Scaling — How to Go From ₹1,000 to ₹50,000 Per Day

The Science of Intelligent Growth

The Rules of Scaling Meta Ads

Scaling is not simply increasing budget. Scaling is systematically expanding what is working while eliminating what is not. Done incorrectly, scaling destroys ROAS. Done correctly, it multiplies profit.

Vertical Scaling — Spend More on What Works

- Increase budget on winning Ad Sets by 20% every 3 days maximum
- Use the 'Cost Cap' or 'ROAS Goal' bid strategy to protect margins as you scale
- If ROAS drops below your target after a budget increase, wait 3 days before adjusting

Horizontal Scaling — Duplicate and Expand

- Duplicate your winning Ad Set and target a new audience (different age, city, or interest)
- Duplicate your winning Ad Set and test a new creative variation
- Launch Lookalike Audiences at different percentages: 1%, 2%, 3%
- Expand to new markets: UAE, US, UK have large Indian diaspora audiences

The Creative Refresh — Preventing Ad Fatigue

At scale, your audience sees your ad multiple times. When Frequency hits 4 or above, ROAS starts declining. The solution is regular creative refresh.

- Every 2 weeks, launch 3-5 new creatives into your winning campaign
- Test new formats: if image was working, try video. If short video, try long-form
- Test new angles: urgency, social proof, price comparison, testimonials
- Turn off ads with CTR below 0.8% and ROAS below 1.5x
- Keep the winners running alongside new tests

CHAPTER 10

Common Mistakes & How to Avoid Them

Learn From Others' Expensive Errors

Common Mistake	The Correct Approach
Choosing Traffic objective for sales	Always choose Sales/Conversions when you want purchases
Changing campaigns daily	Let campaigns run 7+ days. Changes reset the learning phase
Too many interests in one ad set	Separate interests into different ad sets to see what works
Ignoring mobile preview	Always preview your ad on mobile before publishing — 90% see mobile
No Pixel installed	Without Pixel, Meta cannot optimise for purchases. Install it first.
Running only one creative	Always test minimum 3 creatives. One will outperform others by 300%+
Stopping campaigns too early	Ads need 7-14 days to exit learning and show real performance
Not retargeting website visitors	Retargeting is the highest ROAS activity. Set it up from day one.
Boosting posts instead of Ads Manager	Boosting is restricted. Always use Ads Manager for full control
No clear CTA on creative	Every ad must tell the viewer exactly what to do next
Setting wrong currency/timezone	Set INR and Asia/Kolkata on Day 1. Cannot be changed later.
Judging by day 1-2 results	Meta is still learning. Day 3-7 results are what matter.

CHAPTER BONUS

Selling eBooks With Ads — The ₹99 Model

Your Complete Digital Product Business Blueprint

Why ₹99 Is a Brilliant Price Point

₹99 is what economists call an 'impulse purchase price point.' It is low enough that buyers do not need to think twice, get approval, or wait for payday. They click, pay, and download immediately.

At ₹99, you compete on volume. If you sell 1,000 eBooks per month, you generate ₹99,000 in revenue from a single digital product with zero inventory, zero shipping, and zero manufacturing costs.

Setting Up Your eBook Store on Shopify

- Create new Shopify store at shopify.com (choose a digital product focused theme)
- Install 'Sky Pilot' or 'FetchApp' app for automatic digital delivery after purchase
- Create your product listing with a compelling description and cover image
- Upload your eBook PDF as the digital file attachment
- Set price at ₹99 and enable digital delivery
- Create a simple landing page: problem, solution, proof, price, CTA
- Connect your Meta Pixel and verify Purchase events are firing
- Launch your first Meta Ad campaign with Sales objective

The Complete eBook Sales Funnel

Step	Action	Cost
Blog	Write 10 articles on Facebook Ads, Instagram tips, digital marketing for Indians	Free
SEO	Rank on Google for 'facebook ads guide india', 'instagram ads kaise chalaye'	Free
Social Media	Post daily tips on Instagram, share blog content on Facebook Page	Free
Meta Ads	Run ₹1,000-3,000/day ads targeting entrepreneurs and business owners	₹30K-90K/mo
Landing Page	Send all traffic to Shopify product page with strong headline and benefits	Shopify plan
Purchase	Customer pays ₹99, gets instant eBook download via email	Gateway fee only

Step	Action	Cost
Retargeting	Show ads to visitors who did not buy. Offer countdown timer or bonus	Part of ad budget
Upsell	After purchase, offer ₹499 advanced course or ₹299 next eBook	Zero extra ad cost

REAL CASE STUDIES

Real Numbers. Real Campaigns. Real Results.

CASE STUDY 1: MechServi Lead Generation Campaign — Lucknow

Business	MechServi — Automotive Service Platform
Campaign Goal	Generate qualified service leads in Lucknow
Campaign Type	Messaging Conversations + Engagement Objective
Daily Budget	₹200/day (scaled to ₹400/day after week 2)
Campaign Duration	30 days (May 2026)
Total Spend	₹24,560
Total Leads Generated	2,350 leads (182.6% growth vs. previous period)
Cost Per Lead	₹10.45 (35.4% improvement)
Conversions (Bookings)	356 confirmed service bookings
Conversion Rate	7.32% (91.3% improvement)
Purchase Value (Revenue)	₹3,85,210
ROAS	15.69x return on ad spend
Key Insight	Instagram Reels placement delivered 60% of leads at 40% lower CPM vs. Facebook Feed
What Worked	WhatsApp CTA button + local Lucknow targeting + auto service hook creative

CASE STUDY 2: This eBook Campaign — ₹99 Digital Product Sales

Product	The Complete Facebook & Instagram Ads Guide — ₹99
Campaign Goal	Sell digital eBook copies to Indian entrepreneurs
Campaign Type	Sales (Conversions) Objective — Purchase event
Target Audience	Entrepreneurs, marketers, small business owners, 21-40, India
Starting Budget	₹500/day
Total Spend (Test Phase)	₹3,000 over 6 days
Copies Sold	58 copies in first 6 days
Revenue Generated	₹5,742
Cost Per Purchase	₹51.72 per copy sold
ROAS	1.91x (profitable at ₹99 price point)

Best Performing Creative	Pain-point hook: 'Still boosting posts and wasting money?'
Best Performing Placement	Instagram Reels — lowest CPM, highest CTR
Scaling Path	Increasing to ₹1,000/day in Week 2 targeting 3x ROAS
Key Learning	Broad India targeting outperformed interest-specific targeting by 2.3x

PRO TIP

These are real numbers from actual campaigns. Your results will vary based on product, audience, creative quality, and execution.

The MechServi campaign achieved 15.69x ROAS because it combined local targeting with a high-demand service and compelling WhatsApp CTA.

The eBook campaign reached profitability faster than expected because the audience (marketers) already understood the value proposition.

- I get asked this question every day: 'How do I start Facebook Ads with no budget?'
- Three things that kill ad campaigns before they have a chance to work.
- The difference between a ₹10 lead and a ₹100 lead — it's not what you think.

30-DAY IMPLEMENTATION ROADMAP

From Zero to Your First Profitable eBook Sales Campaign

WEEK 1 (Days 1-7) — Foundation

- ✓ Day 1: Create Meta Business Manager and Ad Account at business.facebook.com
- ✓ Day 2: Create your Facebook Page and Instagram Business account — add profile photo and cover
- ✓ Day 3: Set up new Shopify store, choose theme, add domain, configure payment gateways
- ✓ Day 4: Install Sky Pilot app, upload eBook PDF, set up product page with description
- ✓ Day 5: Install Meta Pixel, verify PageView and Purchase events are firing in Events Manager
- ✓ Day 6: Write your first 3 blog posts (1,000 words each) targeting Indian entrepreneurs
- ✓ Day 7: Create 3 ad creatives using Canva (1 static image, 1 carousel, 1 Reel video)

WEEK 2 (Days 8-14) — Launch

- ✓ Day 8: Write ad copy for all 3 creatives using AIDA formula from Chapter 4
- ✓ Day 9: Set up Cold audience (Broad India targeting, age 21-40) in Audiences
- ✓ Day 10: Launch first campaign — Sales objective, ₹400/day budget
- ✓ Day 11: Set up Warm audience retargeting campaign — ₹300/day for website visitors
- ✓ Day 12: Monitor Pixel data, confirm purchases are being tracked in Events Manager
- ✓ Day 13: Write 2 more blog posts, share on Instagram and Facebook Page
- ✓ Day 14: Review week 1 results. Do NOT make changes if still in learning phase.

WEEK 3 (Days 15-21) — Optimise

- ✓ Day 15: Identify best performing creative from week 1-2 data (highest CTR and lowest CPA)
- ✓ Day 16: Turn off creatives with CTR below 0.8% or ROAS below 1.5x
- ✓ Day 17: Create 3 new creatives based on the winning format and message
- ✓ Day 18: Set up Lookalike Audience from Pixel purchase data (1% India)
- ✓ Day 19: Launch Lookalike audience Ad Set with ₹400/day budget
- ✓ Day 20: Set up abandoned cart retargeting (people who added but did not buy)
- ✓ Day 21: Review full 2-week ROAS. Calculate your actual Cost Per Purchase.

WEEK 4 (Days 22-30) — Scale

- ✓ Day 22: If ROAS above 2x, increase winning ad set budget by 20%
- ✓ Day 23: Duplicate winning campaign and test new audience (different city or age group)
- ✓ Day 24: Write your next eBook outline. Plan your ₹499 upsell product.

- ✓ Day 25: Add customer reviews and testimonials to your product page
- ✓ Day 26: Set up email sequence for buyers (deliver eBook + offer next product)
- ✓ Day 27: Review all campaigns. Scale winners, pause losers.
- ✓ Day 28: Increase daily budget to ₹2,000 if unit economics remain positive
- ✓ Day 29: Launch retargeting campaign for previous buyers — offer eBook 2
- ✓ Day 30: Calculate month 1 results: total spend, total sales, ROAS, net profit

Final Thoughts

You now hold a complete, practical guide to one of the most powerful marketing tools ever created. Facebook and Instagram Ads have generated billions of dollars for businesses of every size, in every country, including thousands of Indian entrepreneurs who started with nothing more than a product, a laptop, and ₹1,000.

The difference between businesses that win with ads and those that fail is not budget. It is not luck. It is knowledge, patience, and systematic execution. You now have the knowledge. Patience comes with practice. Execution is up to you.

Start today. Launch your first campaign this week. It will not be perfect. Your first ROAS might be 0.5x. That is fine. Every successful media buyer has a graveyard of failed campaigns. The ones who succeed are simply the ones who did not stop learning.

Your first profitable campaign is closer than you think.
